

Bitzoom Wallet Testing Guide

Your complete guide to setting up a test wallet for testing deposit and withdrawal on Bitzoom.

Step 1 — Install TronLink Wallet

Install the TronLink browser extension from the Chrome Web Store:

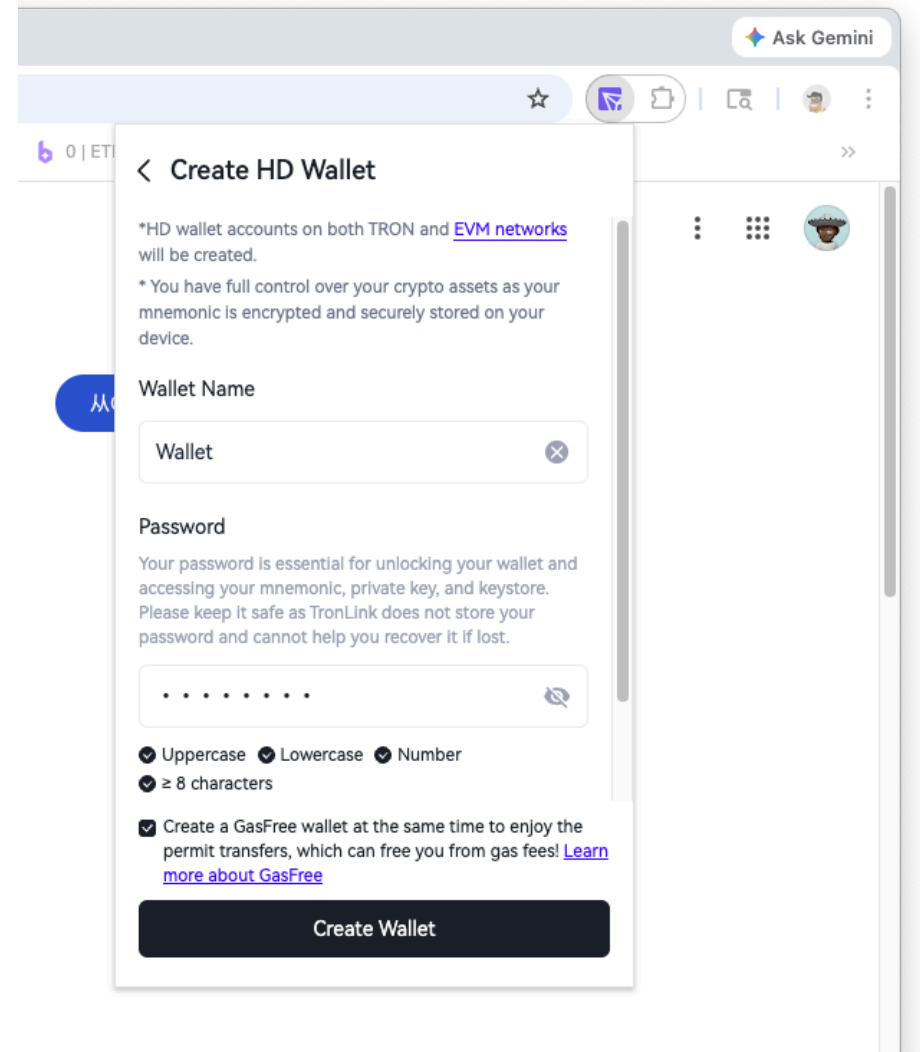

<https://chromewebstore.google.com/detail/tronlink/ibnejdfjmmkpcnlpebklmknkoeoihofec>

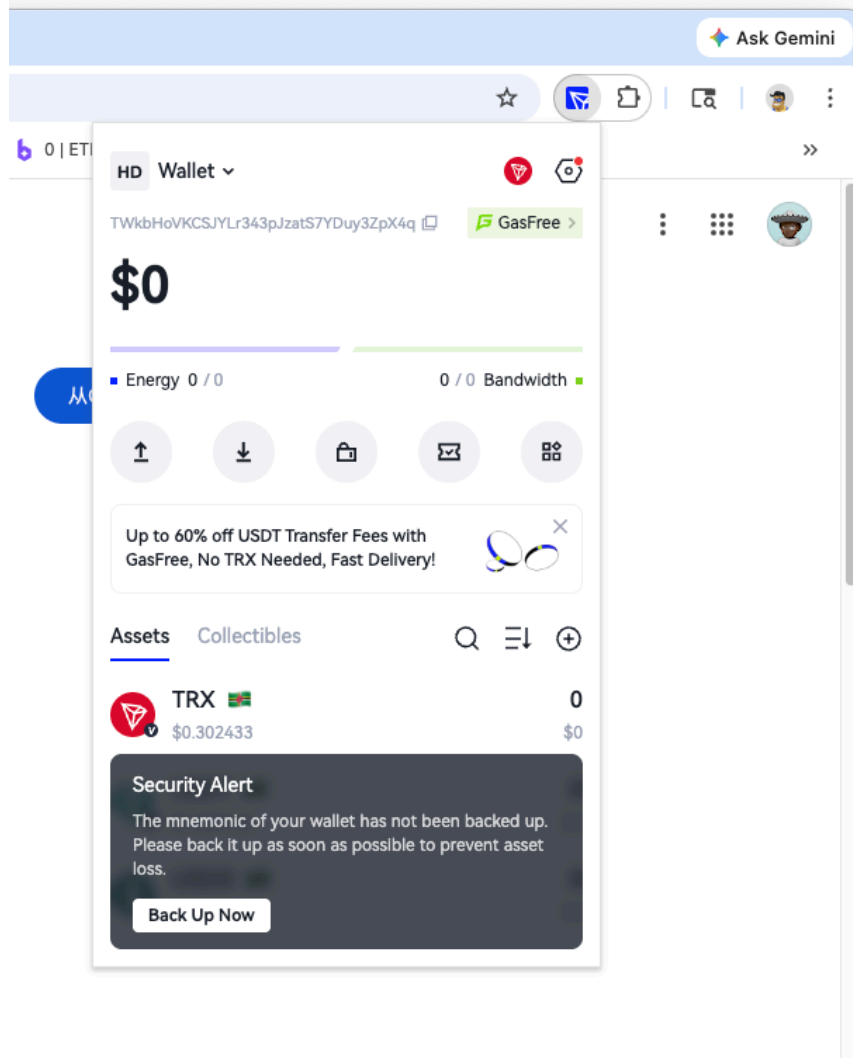

- Open the link above in Chrome
- Click **Add to Chrome** to install the extension
- Click the **puzzle icon** in the top-right corner of Chrome and pin TronLink for easy access

Step 2 — Create a Wallet

After installing TronLink, open the extension and create a new wallet.

- Click the **TronLink icon** in the Chrome toolbar
- Select **Create Wallet**
- Set a **wallet name** and **password**
- **Back up your seed phrase** — write it down and store it safely
- Confirm the seed phrase to complete setup

Step 3 — Your Wallet is Ready

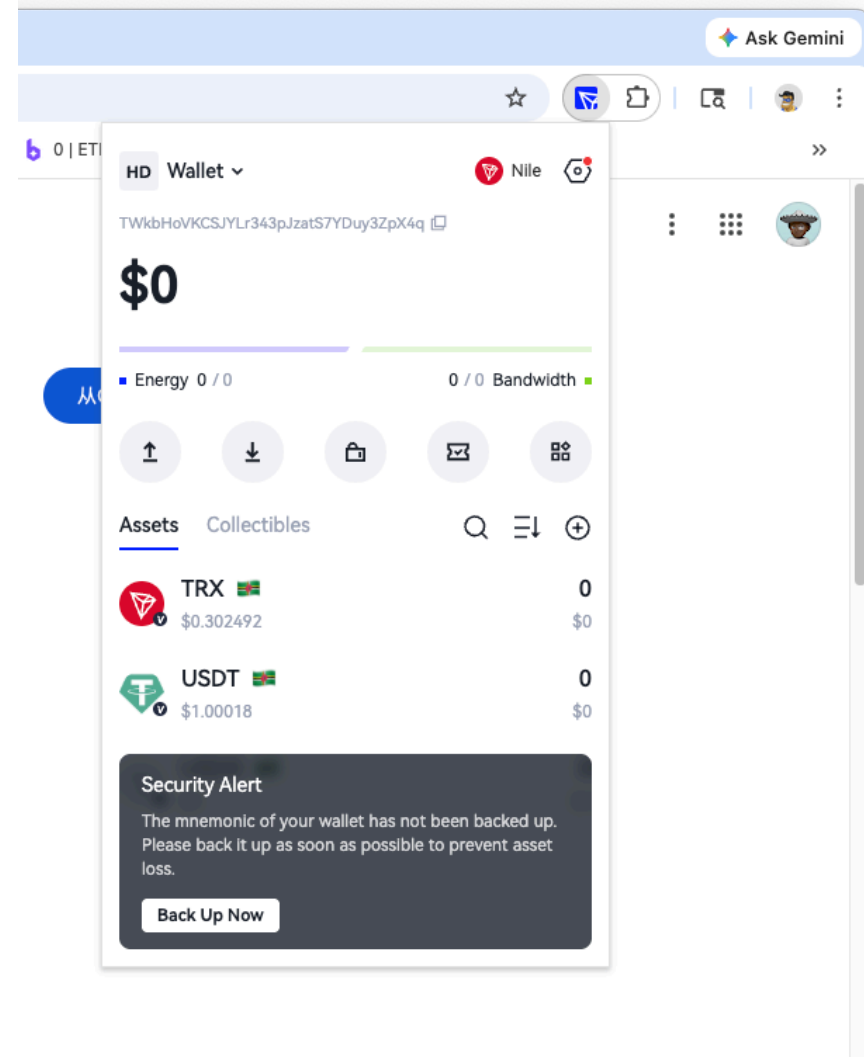

After creating your wallet, you will see the main wallet screen.

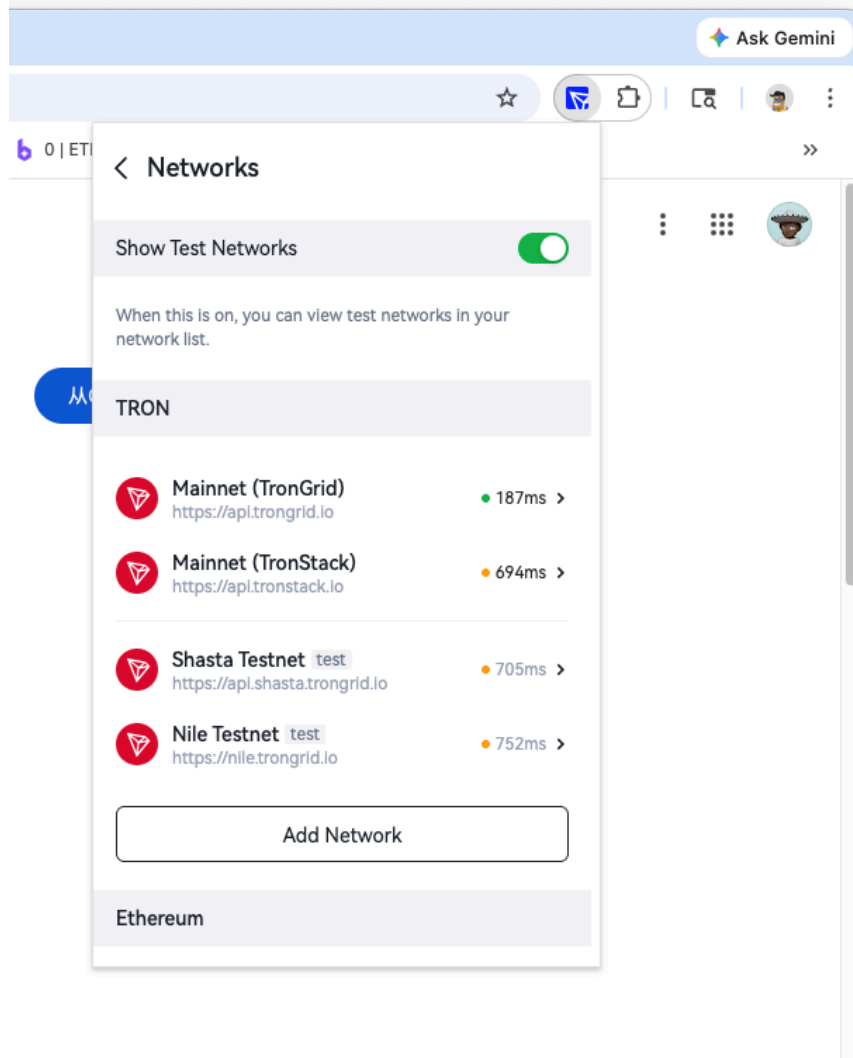

- Check the **top-right corner** — it should show **GasFree**
- Your wallet is now created with **\$0** balance
- You will see a **Security Alert** warning you to back up your wallet
- Click **Back up** to proceed to the backup step

Step 4 — Back Up Your Wallet

Back up your seed phrase to keep your wallet safe.

- Click **Back up** from the security alert or go to Settings to back up
- Write down your **seed phrase** on paper and store it safely
- **Never share** your seed phrase with anyone
- Confirm the seed phrase to complete the backup

Step 5 — Enable Test Networks

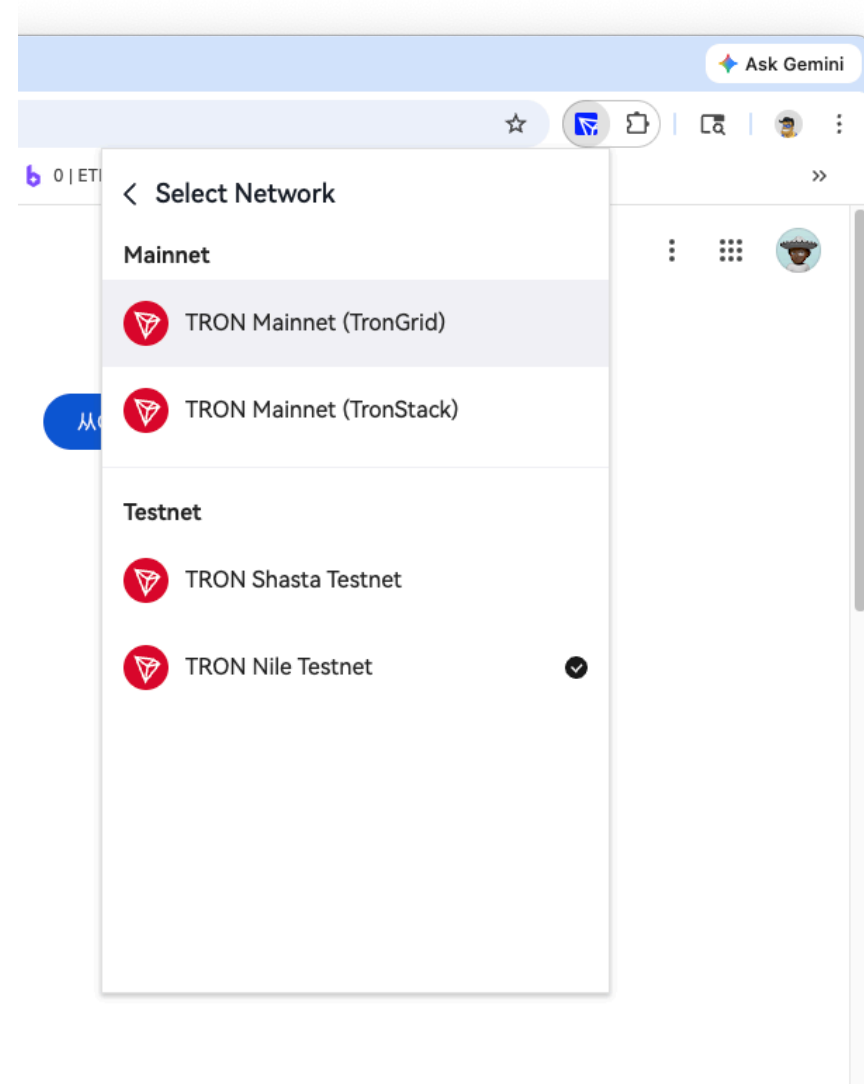

By default, TronLink only shows the Mainnet. You need to enable test networks first.

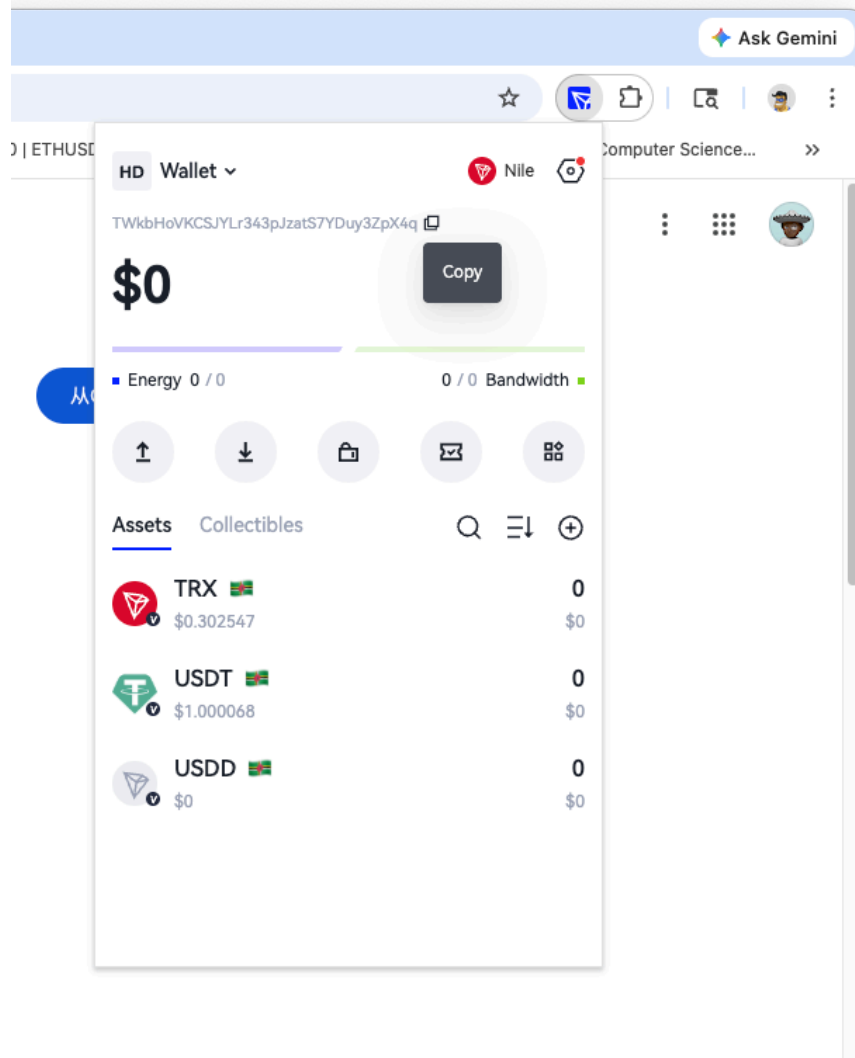

- Open TronLink and click the **Settings icon** (gear) in the top-right corner
- Choose **Network**
- Toggle on **Show test network**
- Go back to the main screen

Step 6 — Switch to Nile Testnet

Now switch the active network to the Nile Testnet.

- On the main screen, click the **network icon** (next to the Settings gear icon) in the top-right corner
- Select **Nile Testnet** from the list
- You should see the network label change to confirm you are on the testnet

Step 7 — Copy Your Wallet Address

You will need your wallet address to receive test tokens.

- Open TronLink and make sure you are on **Nile Testnet**
- Click your **wallet address** to copy it to clipboard
- You will paste this address in the next step

Step 8 — Get Test TRX (Gas)

TRX is needed to pay for transaction fees (gas) on the TRON network.

Visit the Nile Testnet faucet to get free test TRX.

<https://nileex.io/join/getJoinPage>

- Open the faucet link above
- Find the **"Get 2000 test coins"** section
- Paste your **wallet address** into the Account Address field
- Complete the **reCAPTCHA** verification
- Click **Obtain** to receive 2000 test TRX
