Trading Overview

The futures trading page combines all essential tools in a single view:

- **Chart** (left) — TradingView candlestick chart with technical indicators
- **Order Book** (center) — Live bid/ask prices and recent trades
- **Order Form** (right) — Place orders with margin, leverage, and TP/SL controls
- **Positions & Orders** (bottom) — Monitor open positions and order history
- **Account** (bottom-right) — View balance and margin details

Price Chart

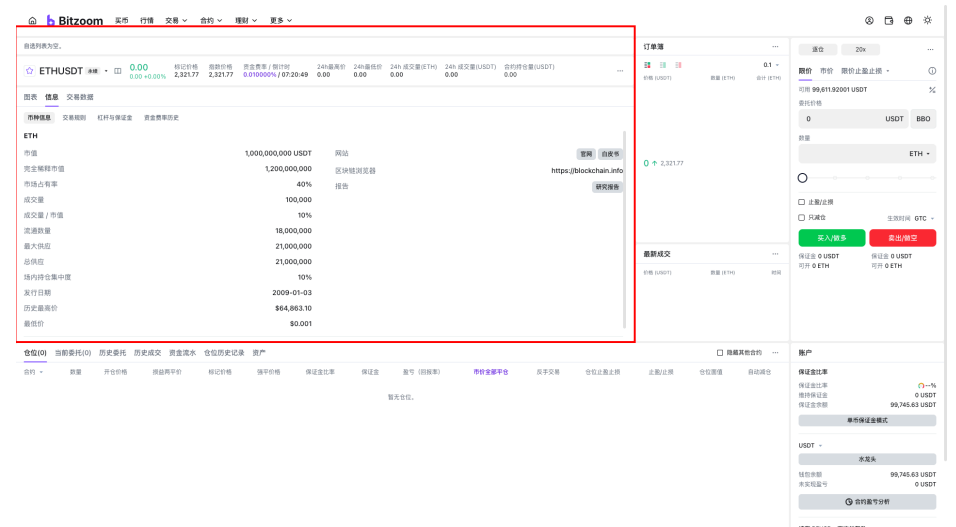

The chart area provides detailed price analysis powered by TradingView.

- Switch between timeframes: **1m, 5m, 15m, 1H, 4H, 1D, Weekly**
- View **Last Price, 24h High/Low, Volume, Mark Price, Index Price** in the top bar
- Add technical indicators: **MA, EMA, BOLL, VOL, MACD, RSI**
- Hover over candles to see **Open, High, Low, Close** and **Change %**

Chart — Info Tab

Switch to the **Info** tab to view contract specifications for the trading pair.

- **Max Leverage, Funding Rate, Index Price**
- **Contract Size, Tick Size, Min Order Size**
- **Insurance Fund** balance
- **Explorer URL** for on-chain verification

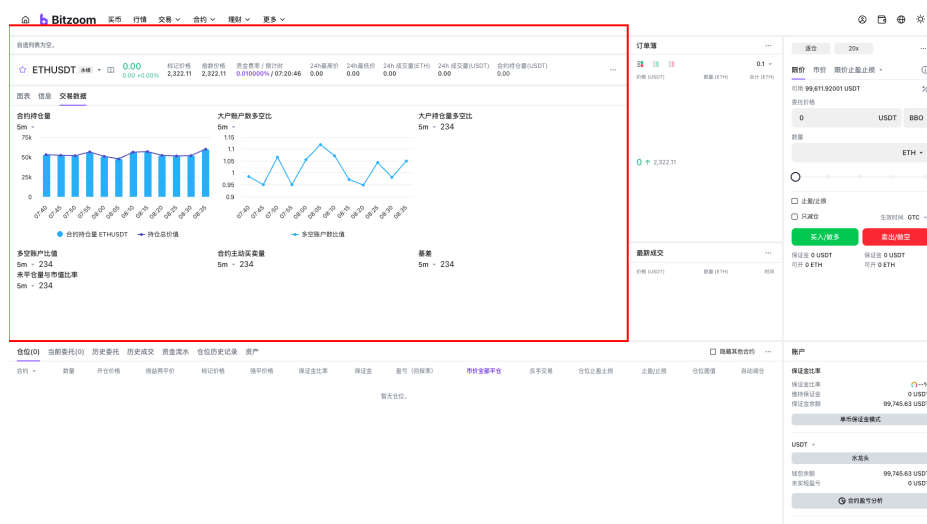

Chart — Trade Data Tab

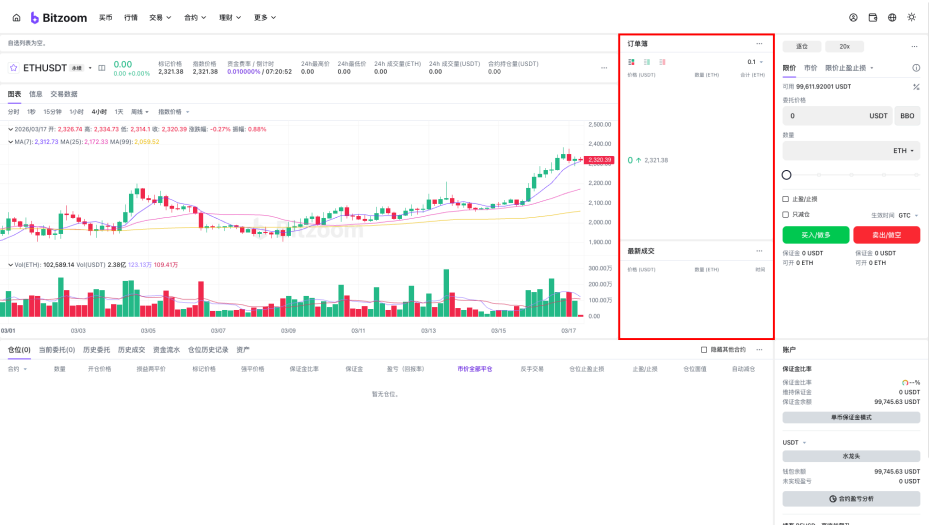

Switch to the **Trade Data** tab to view market analytics.

- **Long/Short Account Ratio** — Percentage of accounts holding long vs short
- **Long/Short Position Ratio** — Volume of long vs short positions
- **Buy/Sell Volume** — Taker buy and sell volume comparison
- **Open Interest** — Total outstanding contracts over time

Order Book & Recent Trades

The center panel shows live market depth and recent executions.

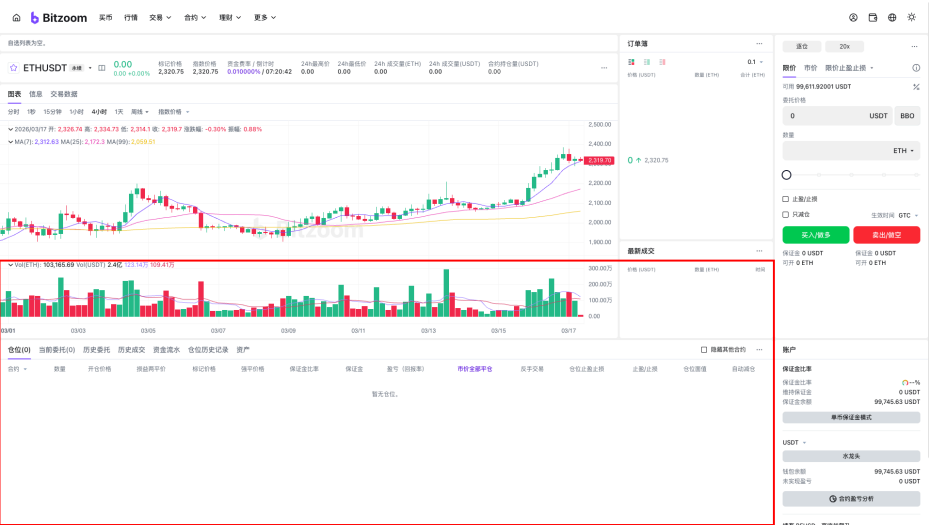

- **Order Book** displays bid (green) and ask (red) prices with cumulative quantities
- Toggle between three views: **both sides**, **bids only**, or **asks only**
- The **spread** is shown between bid and ask prices
- **Recent Trades** section below shows the latest executed trades with price, quantity, and timestamp

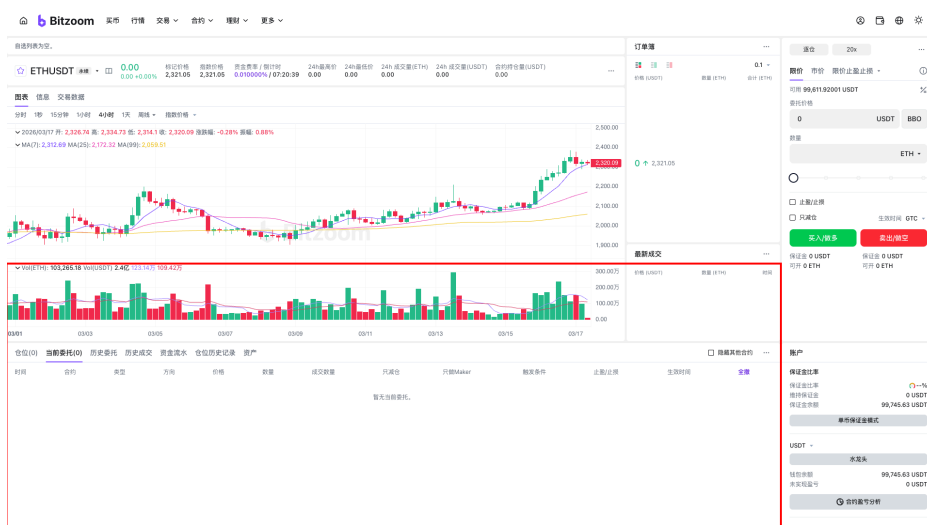

Positions

The **Positions** tab shows your currently open positions.

- View **Contract**, **Size**, **Entry Price**, **Mark Price**, **Liq. Price**, **Margin**, **PnL**
- Quick actions: **Market Close All**, **Reverse Trade**, **Set TP/SL**
- Toggle **Hide other contracts** to focus on the current trading pair

Open Orders

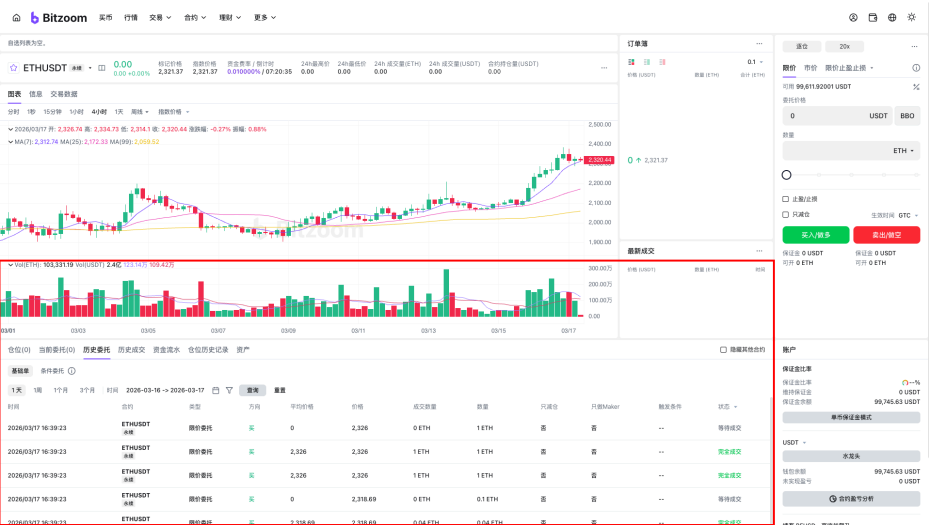

The **Open Orders** tab shows pending orders waiting to be filled.

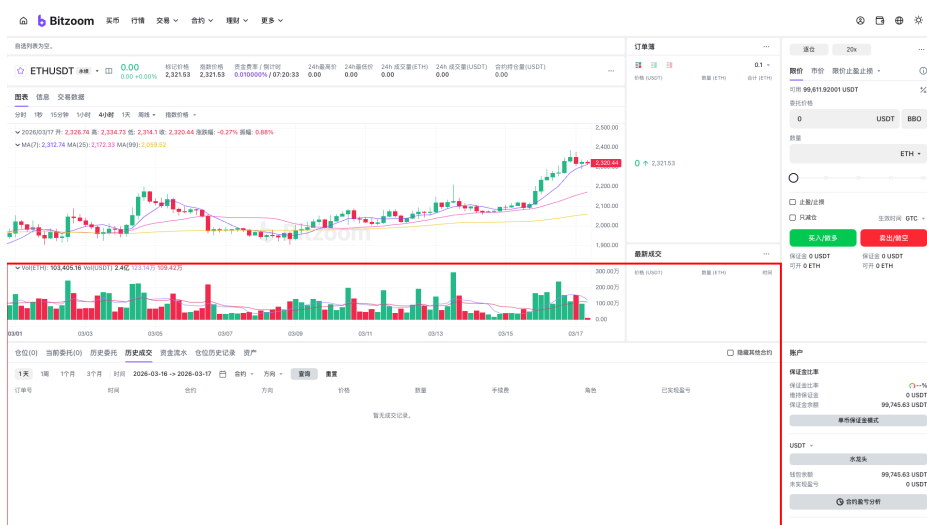

- View order **Type**, **Side**, **Price**, **Amount**, **Filled**, **Status**
- Cancel individual orders or **Cancel All**
- Filter by current contract or show all pairs

Order History

The **Order History** tab shows completed and cancelled orders.

- View **filled price**, **filled amount**, **fee**, and **status**
- Filter by **date range**, **symbol**, **direction**, and **order type**
- Export history for record keeping

Trade History

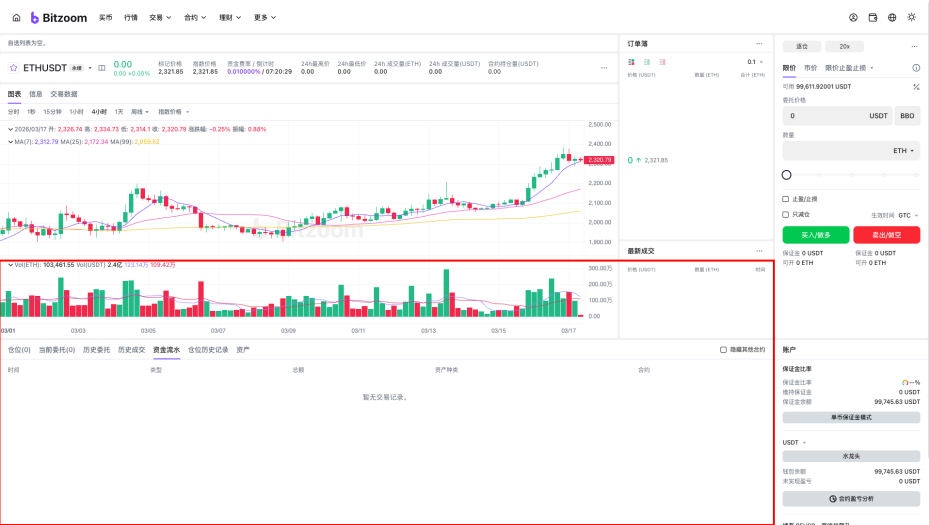

The **Trade History** tab shows all executed fills.

- Each fill shows **price**, **quantity**, **fee**, and **timestamp**
- Partial fills are listed separately
- Filter by **date range** and **symbol**

Fund Flow

The **Fund Flow** tab tracks all fund movements.

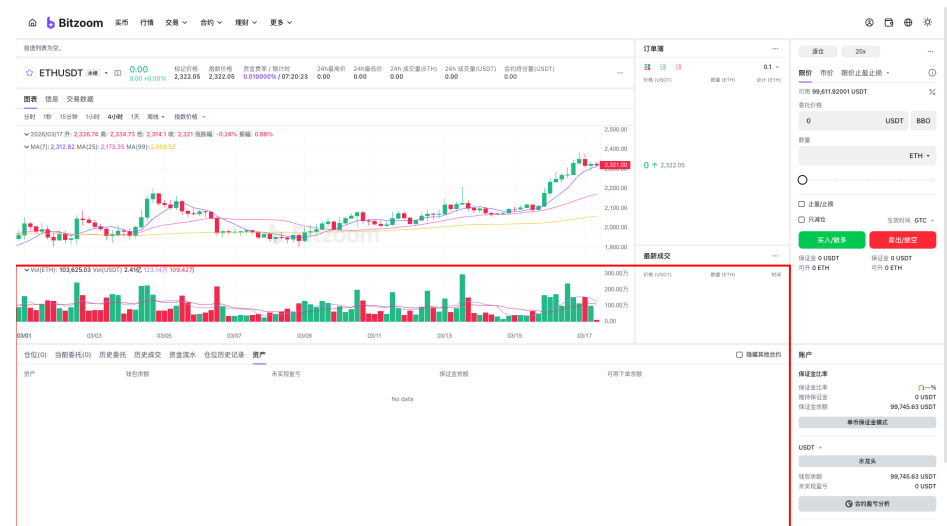

- View **deposits, withdrawals, and transfers**
- Track **funding fee** charges and receipts
- Filter by **date range** and **transaction type**

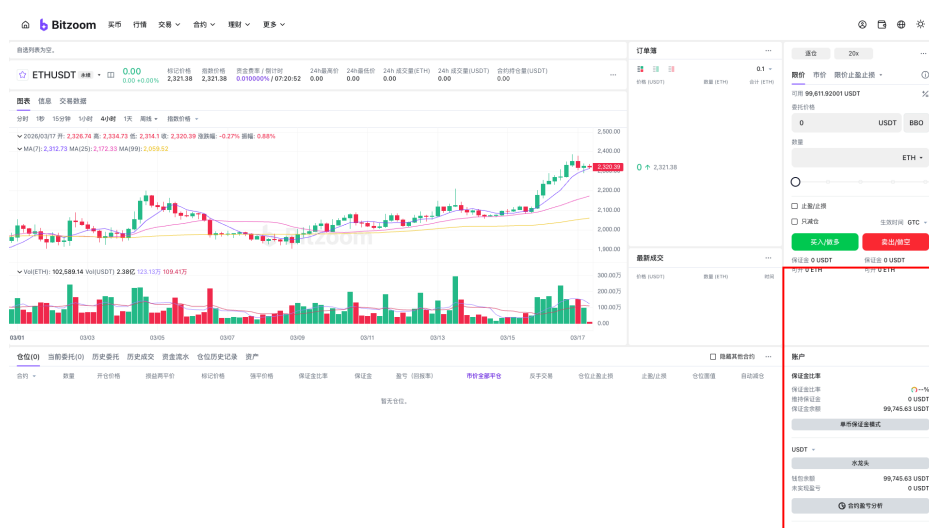

Assets

The **Assets** tab shows your futures account balance at a glance.

- **Wallet Balance** — Total USDT in futures account
- **Unrealized PnL** — Current profit/loss on open positions
- **Available Balance** — Funds available for new orders
- Click **Transfer** to move funds between spot and futures

Account Overview

The bottom-right panel shows your margin status.

- **Margin Ratio** — Current margin usage percentage
- **Maintenance Margin** — Required margin to keep positions open
- **Available Balance** — Funds available for new orders
- Monitor to avoid **liquidation**
