

Bitzoom User Guide

Your complete guide to trading futures on Bitzoom.

Install the App

To get started, install Bitzoom via TestFlight:

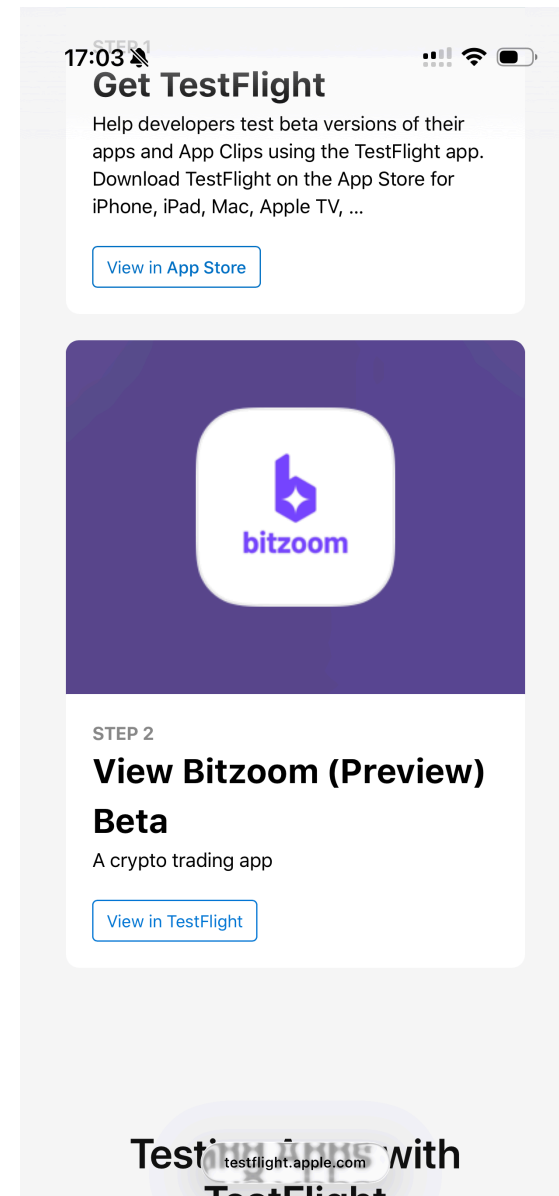

<https://testflight.apple.com/join/snPUdJcS>

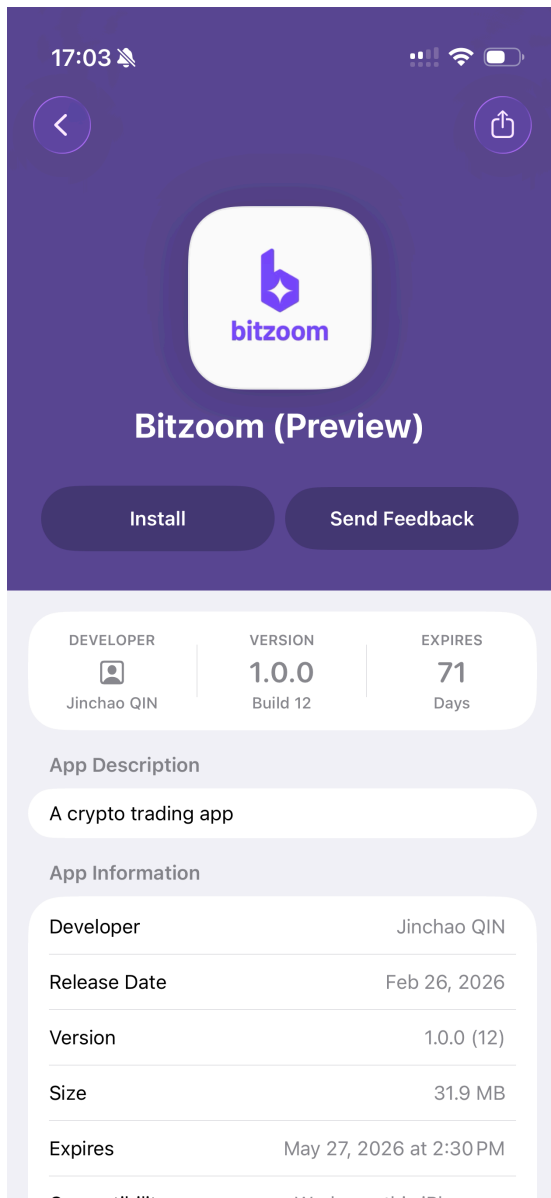

- Open the link above on your iPhone and tap **View in App Store** to download **TestFlight** if you don't have it
- Scroll down to **Step 2** and tap **View in TestFlight** to open the Bitzoom beta app

View in TestFlight

After tapping **View in TestFlight**, the TestFlight app opens with the Bitzoom (Preview) page.

- Tap **View in TestFlight** to open the app details
- You'll see the app name, developer, version, and expiration date

Install & Launch

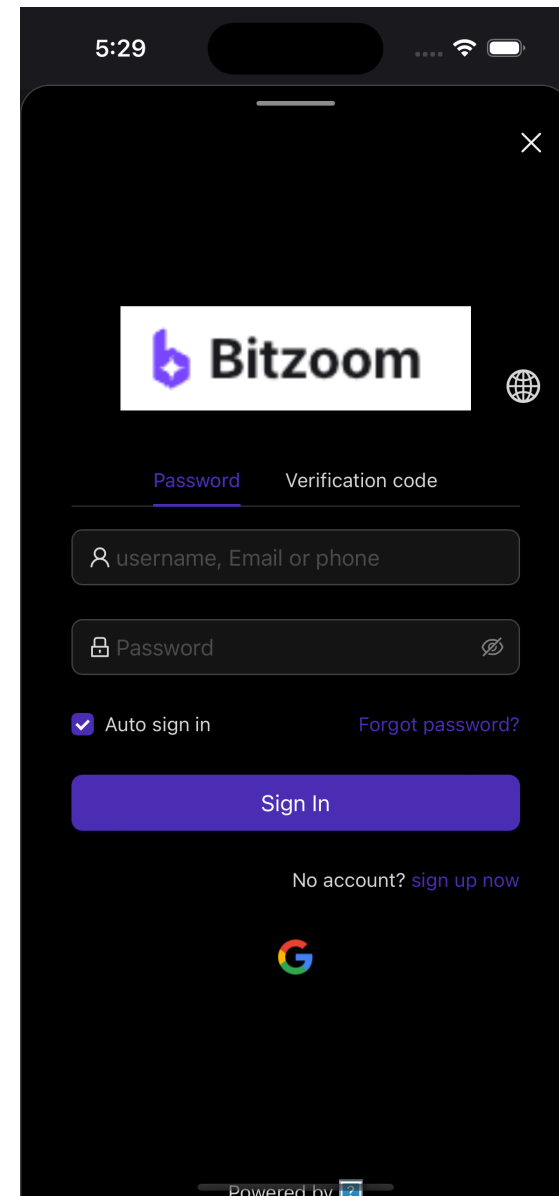

On the Bitzoom (Preview) page in TestFlight:

- Tap **Install** to download and install the app
- Once installed, tap **Open** to launch Bitzoom
- The app will appear on your home screen like any other app

Sign In

Welcome to Bitzoom. Tap **Log In** to access your account.

- Enter your **username, email, or phone** and **password**
- Tap **Sign In** to log in
- Sign in with **Google** or tap **sign up now** to create an account
- Supports **Password** and **Verification Code** login methods

The image shows a mobile app interface for Bitzoom. At the top, the status bar displays the time 5:29, signal strength, Wi-Fi, and battery icons. The app's header is dark with a white 'X' in the top right corner. Below the header is the Bitzoom logo, which consists of a purple 'b' icon and the word 'Bitzoom' in white. To the right of the logo is a globe icon. Below the logo are two tabs: 'Password' (selected) and 'Verification code'. Under the 'Password' tab, there are two input fields: the first is for 'username, Email or phone' with a person icon, and the second is for 'Password' with a lock icon and an eye icon for toggling visibility. Below these fields are two links: 'Auto sign in' with a checked checkbox and 'Forgot password?'. A large purple 'Sign In' button is centered below the links. At the bottom, there is a link 'No account? sign up now' and a Google logo. The footer shows 'Powered by' followed by a small logo.

Home

The Home screen shows your portfolio overview and favorite markets.

- **Est. Total Value** shows your balance in USDT with a USD equivalent
- **Today's Realized PnL** tracks your daily profit or loss
- Tap **Add Funds** to deposit, or use the quick action icons for **Futures**, **Assets**, **Help Center**, and **More**
- **My Favorites** lists your saved trading pairs with **last price** and **24h change %**
- Tap any pair to trade, or **View More** for the full market list

Markets

The Markets tab shows all available trading pairs with real-time prices.

- Browse the full list of **perpetual futures** contracts
- Each pair displays the **symbol**, **volume**, **last price**, and **24h change %**
- Use the **Search** bar at the top to filter by symbol name
- Tap any trading pair to open its detailed chart view
- Prices update in real time via live data feeds

Price Chart

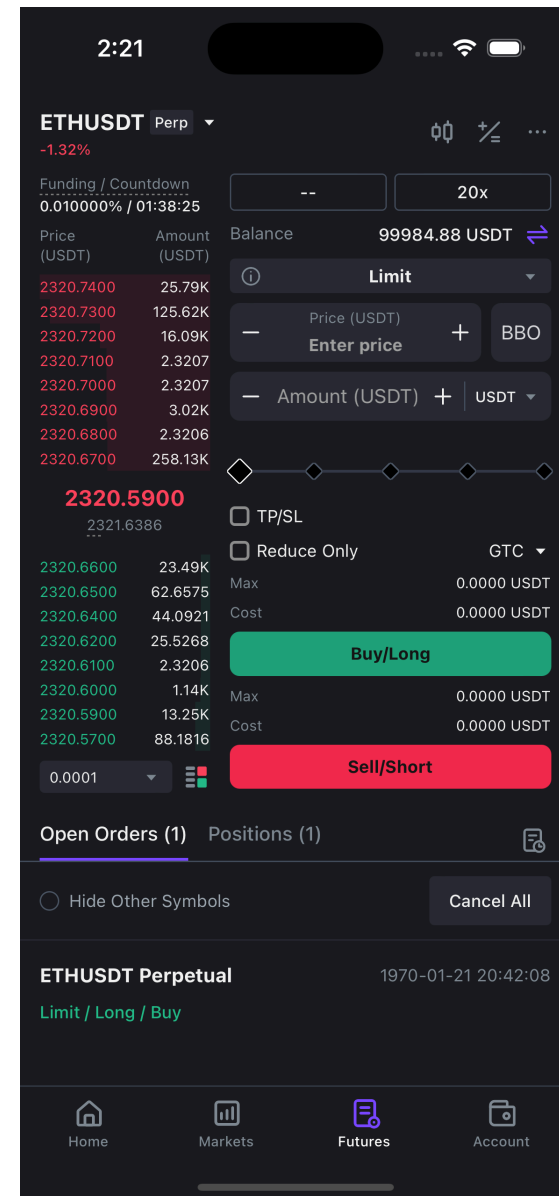

Tap any trading pair to open the chart screen for detailed price analysis.

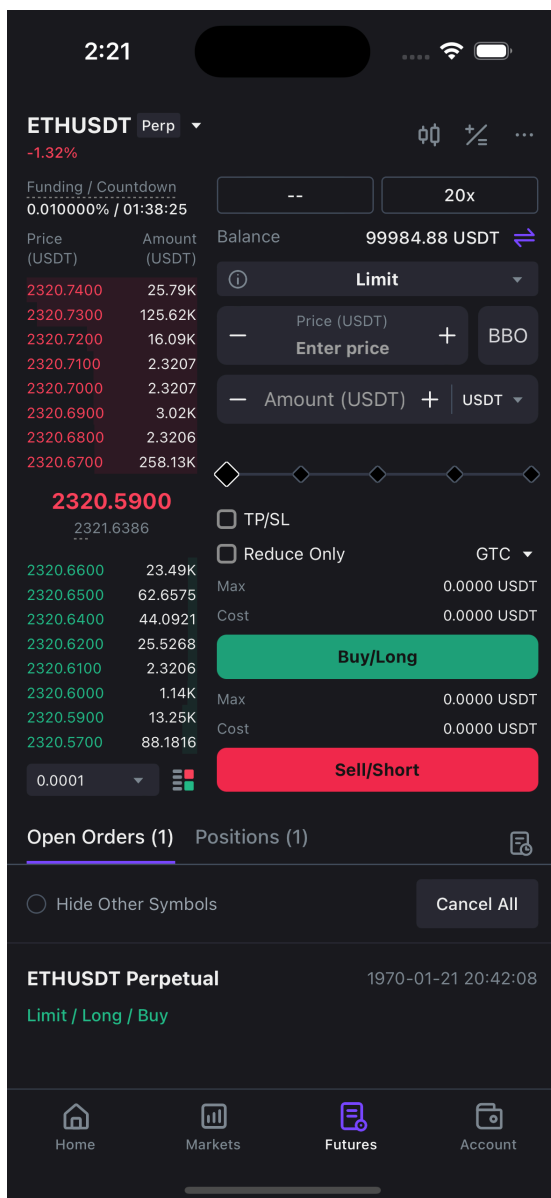

- **TradingView-powered** interactive candlestick charts
- Switch between timeframes: **1m, 5m, 15m, 1H, 4H, 1D, 1W**
- View **Last Price, 24h High/Low, 24h Volume, Mark Price, and Index Price**
- Add technical indicators: **MA, EMA, BOLL, VOL, MACD, RSI**
- Quick trade from the chart: tap **Long** (green) or **Short** (red) at the bottom

Trading Interface

The Futures tab is your main trading screen, combining the order book and order form in one view.

- **Order Book** (left side) shows live bid and ask prices with quantities
- **Order Form** (right side) is where you configure and place your trades
- At the top you'll see the current **symbol**, **Perp** badge, and **24h change**
- **Balance** is displayed showing your available funds
- Below the form, view your **Open Orders** and **Positions** tabs
- Tap **Cancel All** to quickly remove all pending orders

Place an Order

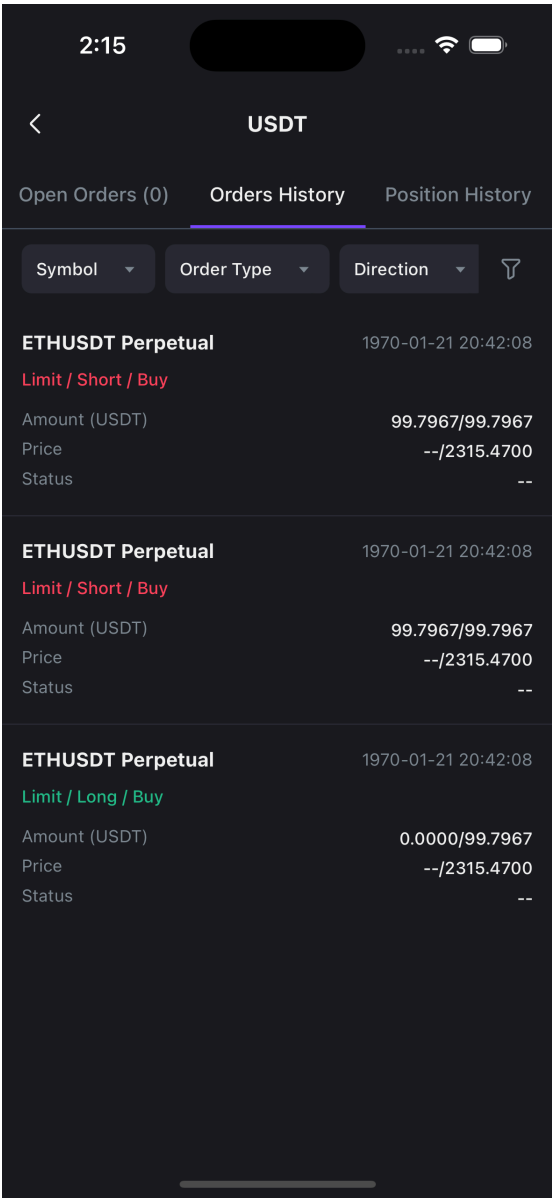

Configure your trade using the order form on the right side of the trading screen.

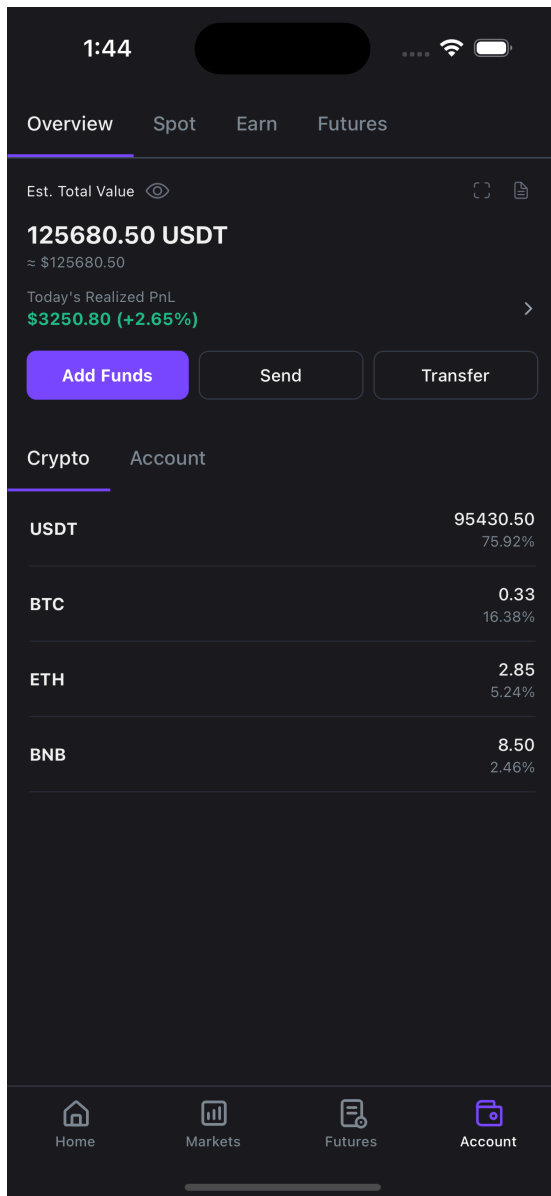

- **Choose Margin Type** — Select between Cross and Isolated margin
- **Set Leverage** — Tap the leverage button (e.g., **20x**) to adjust
- **Select Order Type** — Choose **Limit** or **Market**
- **Enter Price** — For Limit orders, set your price. Tap **BBO** for the best available price
- **Enter Amount** — Specify the quantity in base asset or USDT
- **TP/SL** — Set Take Profit and Stop Loss levels
- **Time in Force** — Choose **GTC**, **FOK**, or **IOC**
- Tap **Buy/Long** (green) to go long, or **Sell/Short** (red) to go short

Order History

Tap the **history icon** on the right side of the Open Orders / Positions tab bar to open the full History screen.

- **Open Orders** — View currently active orders waiting to be filled
- **Orders History** — Review completed and cancelled orders
- **Position History** — See closed positions with realized PnL
- Filter by **Symbol**, **Order Type**, and **Direction** using the dropdown filters

Account Overview

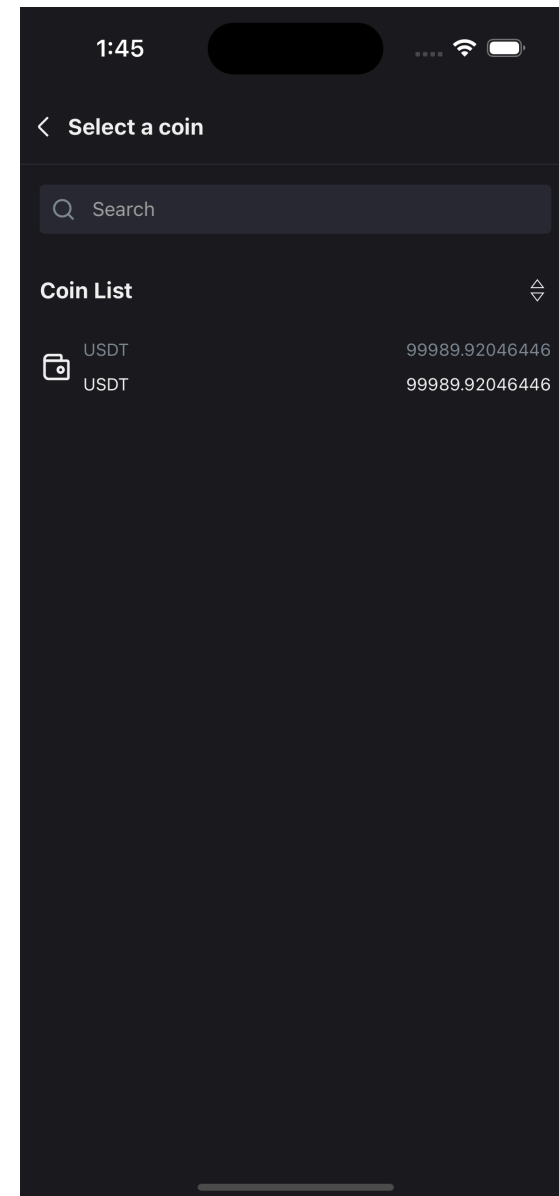

The Account tab shows your full portfolio breakdown.

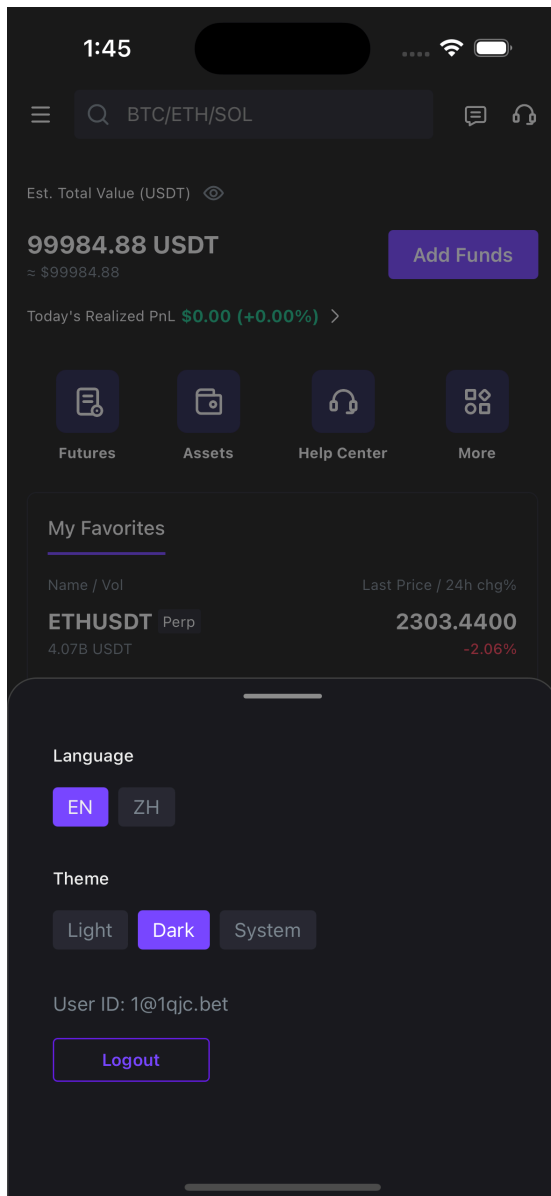

- **Est. Total Value** displays your combined balance across all assets in USDT
- **Today's Realized PnL** shows your daily trading profit or loss
- **Add Funds**, **Send**, and **Transfer** buttons for managing your assets
- Switch between **Crypto** and **Account** views
- The Crypto tab lists each asset with its balance and portfolio percentage

Withdraw Funds

To withdraw cryptocurrency from your Bitzoom account:

- Go to the **Account** tab and tap **Send**
- **Select a coin** from the list
- Enter the **destination wallet address**
- Choose the **network** (chain) for the transfer
- Enter the **withdrawal amount**
- Review the **network fee** and confirm

Settings

Tap the **menu icon** (≡) in the top-left corner of the Home screen to open Settings.

- **Language** — Switch between **EN** (English) and **ZH** (Chinese)
- **Theme** — Choose **Light**, **Dark**, or **System**
- **User ID** — Displays your current logged-in account
- **Logout** — Tap to sign out and return to the login screen
